Office Action Summary

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 25-35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, last line, no express antecedent basis exists for the "carbonate and ester units".

Claim Objections

2. Claims 25-35 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Allowable Subject Matter

3. Claim 36 is allowed. The prior art of record neither anticipates nor renders obvious the preparation of a hydroxy-terminated polyethersulfone which comprises polymerizing the polyethersulfone in the presence of a polycarbonate followed by contacting with aqueous sodium hydroxide or potassium hydroxide to hydrolyze the carbonate units. The present application is a divisional application of Serial No. 09/458,820, previously found allowed.
